Coimbatore, Tamil Nadu, India

SUMMARY

Motivated B.Tech Information Technology graduate with hands-on experience in designing, developing, and enhancing custom software components across web-based systems. Skilled in full-stack development, REST API integration, and performance optimization using modern frameworks. Experienced in development environments and collaborative problem-solving. Committed to building scalable and high-performing software solutions.

SKILLS

Programming Languages	Python, Java
Frontend Technologies	HTML5, CSS3, JavaScript (ES6+), React.js, Angular, Typescript
Backend Technologies	Node.js, .NET
Databases	MySQL
Tools	Git, GitHub, VS Code, Swagger, Postman
Core Concepts	Object-Oriented Programming (OOP), SDLC
Soft Skills	Analytical Thinking, Collaboration, Communication, Problem-Solving

INTERNSHIP EXPERIENCE

1. Full Stack Web Development Intern, Pantech eLearning Pvt. Ltd. Jun 2025 – Jul 2025

- Developed responsive web applications using HTML5, CSS3, and JavaScript.
- Integrated RESTful services with backend systems to enhance functionality.
- Participated in Agile sprint discussions and requirement analysis.
- Performed debugging, testing, and performance optimization.

2. Python Programming Intern, Pantech eLearning Pvt. Ltd. Dec 2024 – Jan 2025

- Developed modular Python applications and automation scripts.
- Applied object-oriented programming principles.
- Assisted in debugging and improving application efficiency.

3. Web Development Intern, Vnet May 2024 – Jun 2024

- Built responsive web applications based on client requirements.
- Assisted in testing, deployment, and documentation.
- Collaborated with team members to ensure timely delivery.

PROJECTS

1. ProjectHub – Task Management & Collaboration Platform

- Developed a full-stack task management system for team collaboration.
- Implemented authentication and task management features.
- Designed APIs and integrated frontend with backend.
- Enabled efficient task tracking and workflow management.

2. E-Store Book Management System – React.js, MySQL (Full CRUD)

- Developed a full CRUD-based book management system.
- Integrated frontend components with backend services.
- Optimized database operations for smooth user experience.

3. Climate Analytics Dashboard – React.js, OpenWeather API

- Built a real-time weather analytics dashboard using API integration.
- Designed reusable UI components for dynamic data visualization.

4. Real-Time Chat Application – React.js

- Developed a secure chat system with authentication and real-time messaging.
- Improved backend and frontend performance.

5. Smart Curtain Control System – ESP32, IoT

- Designed an IoT-based curtain automation system.
- Implemented scheduling and remote control features.

EDUCATION

2022 – 2026	B.Tech in Information Technology , Adithya Institute of Technology	CGPA: 8.216
2021 – 2022	HSC , Sri Ragavendra Higher Secondary School	83%
2019 – 2020	SSLC , St. John De Britto Girls High School	77%

PUBLICATIONS & ACHIEVEMENTS

1. Presented research paper "*Smart Curtain Control System*" at ICAIT 2025.
2. Published research chapter in JSER – Multidisciplinary Research in Innovation & Technology (ISBN: 978-81-986573-4-3), March 2025.
3. Participated in Web Development Hackathon by CognoRise Infotech, June 2024.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
